

War Causes Huge Loss Of Potential Lives

London, July 11.—(Correspondence of The Associated Press).—The war has caused the belated countries of Europe the loss of not less than 12,500,000 potential lives because of the decrease in the number of births resulting from the war, says Sir Bernard Mallet, registrar general of Great Britain. This country, he asserts, has lost in these potential lives, 650,000 children. He believes that other belligerent countries have suffered in this respect more than Great Britain.

Sir Bernard estimated that every day of the war means a loss of 7,000 potential lives of children to the United Kingdom, France, Italy and the

Central Powers. Dealing with the decline in the birth rate here he said the births registered in England and Wales in 1913 numbered 881,909. In 1915 they fell to 814,614, in 1916 there was a further fall to 780,520, and in 1917 to 668,346, a decline of 24 per cent compared with 1913.

BURLESON WILL DIRECT WIRE LINE OPERATION

Washington, July 24.—Burleson will personally direct the government operation of the telegraph and telephone lines. The proclamation did not include the ocean cable radio lines.

FAILURE TO PROVIDE CAUSE FOR DIVORCE

Failure to provide is the complaint made by Goldie Avery against her husband, Nelson C. Avery, in an action for divorce instituted in the Circuit court.

The action recites that the couple were married in 1902. After an extensive period of cruel treatment, during which time she was scarcely provided with the necessities of life, the defendant was forced to go home to her father near Reno for support, where she is now residing, the complaint declares.

The plaintiff in the action asks for the care and custody of the five children. She is represented in court by Herman W. Manning.

SURETY LAUNCH RANDED

The *Missile* boat, a launch that sank at the shipyard landing, has been raised. The boat had not been pumped out enough by the workmen who were repairing her and the pump broke, letting the water run into the engine compartment.

Mr. Short is installing the new engine today, which is a Eureka marine engine having power angles, and the boat will be in use next week.

Chas. Brown is at present employed in building a 25-foot motor boat for Mr. Short which will be used in the Upper lake mail and passenger service along with the *Missile* boat.

SUMMONS

Equity No. 996.
In the Circuit Court of the State of Oregon, for the County of Klamath.

Goldie M. Avery, Plaintiff, vs. Nelson C. Avery, Defendant.
To Nelson C. Avery, defendant above named.

In the name of the State of Oregon, You are hereby required to ap-

pear and answer the complaint filed against you in the above entitled suit, on or before Wednesday, the 4th day of September, 1919, that being the last day of publication of this summons and the last day of the time within which you are required to answer, as filed by the order of publication of summons. If you fail to appear and answer, the plaintiff will apply to the Court for the relief demanded in said complaint. Said suit is brought to secure dissolution of the bonds of matrimony existing between yourself and plaintiff, and for the care and custody of the five minor children belonging to yourself and the plaintiff, and that the plaintiff be declared the owner of an undivided one-half interest in and to your undivided one-fourth interest of the lands and premises hereinafter described, to-wit:

The S½ of the SE¼ of Section Seven, and the NW¼ of the NW¼ of Section Eighteen, all in Township 46, South of Range 2, east of Willamette Meridian, in Klamath county, Oregon, and that the plaintiff's undivided one-fourth interest in and to said lands and premises be absolved of all claim of debt by you, and for such other relief as to the Court may seem equitable. Said suit is based upon cruel and inhuman treatment of plaintiff by you. This summons is published in the Evening Herald, a daily newspaper of general circulation, printed, published and circulated daily in Klamath county, State of Oregon, at Klamath Falls, Oregon, by order of the Honorable D. V. Kayhondall, Judge of said Court, and dated July the 23rd, 1919, and the last publication thereof to be made upon Wednesday, the 4th day of September, 1919.

H. M. MANNING,
Attorney for the Plaintiff.
Postoffice address, Leominster Building, 409 Main Street, Klamath Falls, Oregon.

Efforts Speeded Up To Meet Coal Shortage

Philadelphia, July 24.—As coal exports predict that anthracite coal is going to be scarce this winter, all of the inventive genius in the anthracite industry has been hunting for new sources of supply. Operators are working abandoned mines, installing new devices and putting in electric power.

The barrier pillar between the New Boston and Mill Creek collieries, containing 500,000 tons of anthracite, is to be mined. Bancroft mountain, south of Ashland, is to be stripped of its surface of coal veins for a stretch of two miles. Fifty years ago this mine was supposedly worked out, abandoned and then flooded with water.

With a dwindling force of 144,000 men in the anthracite mines and the prospect of this number being still further reduced by the July draft, the industry is fighting harder than ever before, if possible, to maintain a maximum output close to 375,000 tons of anthracite per day.

American boys are dying for their country. Surely you can save for it. Buy War Savings Stamps.

Today's Dangers

Modern ways of living throw a heavier burden on the organs of digestion. A careless diet, hurried eating, insufficient exercise, concentrated foods—such are today's dangers.

The bowel system is an easy prey. And so comes Constipation and its host of resultant ills.

Up to now, harsh methods have been necessary as a relief—violent cathartics, often drug-laden. The bowels become dependent upon pills, purgative waters and similar cathartics, and a habit was formed.

Stanolax ends all old makeshifts, all old dangers.

Unlike a hasty cathartic, Stanolax acts gently, but surely. It is an internal lubricant, purely mechan-

ical in action, not a medicine. It is neither digested nor absorbed. It is tasteless, colorless, odorless.

Thousands have gained relief this better way. And so will you. Stanolax encourages natural and normal functions, by preventing constipation.

One bottle is convincing. Buy it today.

STANOLAX FOR CONSTIPATION

Stanolax is for sale in Klamath Falls only by Underwood's Pharmacy and the Star Drug company.

Colored Women Are Making Great Records

Denver, July 24.—Included in the delegates to the National Association of Colored Women's clubs, which met here this month were lawyers, real estate brokers, newspaper women and teachers, besides members of many other prominent professions and callings. One Negro woman in attendance returned to Denver a millionaire visitor. Just a few years ago she was a wash woman here.

During the convention these colored women leaders told of the struggles they had overcome to achieve their place in the world and detailed how success had come despite racial prejudices and handicaps. Madame C. J. Walker is the woman who returned a millionaire. Her

home is Irvington-on-the-Hudson, where other millionaires live. Thirteen years ago she arrived in Denver with just a dollar and a half in her pocket. She took in washing and any other work she could obtain and she was glad to get it, she said. During this time she evolved a scheme of beauty culture, particularly for the hair.

A brew of herbs, a new manner of massage—that was the start. The start that took her from an attic room in Clarkson street, Denver, to the Italian renaissance home on the Hudson.

Other delegates achieved success in the paths they have chosen.

Mrs. Elizabeth Garter, for twenty years a teacher in the public schools of New Bedford, Mass., counts only

part of her work. She is president and founder of the home for the aged in New Bedford, which receives both the destitute and those who are able to pay, of both white and colored races.

Miss Hallie O. Brown is a teacher of elocution and public speaking in Wilderforce university. She has had ten years of work in Europe, part of which time she was associated in the philanthropic work of Lady Somerset. Five years ago she attended a conference in Edinburgh and came back to America with \$15,000 given by foreign philanthropists for improvements in the University.

Mrs. A. F. Jenkins, another delegate, is a real estate dealer in Kansas City, Mo. Mrs. Mary Church of Washington, D. C., also is a real estate dealer. Mrs. Mary Talbot, president of the association, does social service work in her home city, Buffalo, N. Y.

Many other delegates also can point to successful careers.
